FOCUS:

A Clinical Study for Diabetes Health

The FOCUS study is being done to look into the long-term effect and safety of a FDA approved medicine called semaglutide (Ozempic®) on diabetic eye disease in people with type 2 diabetes.

Our Care

In the study, you will be seen by both a diabetes doctor and an eye doctor, and there will be a high focus on achieving an optimal blood sugar level. You will still continue all usual visits with your other physicians.

About Us

Novo Nordisk is partnering with Dr. Cynthia Bowman-Stroud of Four Rivers Clinical Research and the Paducah Retinal Center to bring this study opportunity to your local area!

Study Benefits

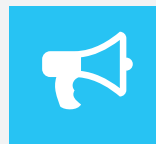

- Take a more active role in your healthcare
- Receive expert medical care at no cost
- Get regular eye exams, diabetic testing supplies, & trial medication for free
- Help others by contributing to medical research
- Receive \$___ per visit for travel expenses

Eligibility Criteria

You may be eligible to participate if you:

- Are 18 years or older
- Have had Type 2 Diabetes at least 10 yrs
- Have a hemoglobin A1c between 7-10%
- Have diabetic eye disease

Get Started

This study is actively seeking volunteers! Call 270-441-4606 to schedule a personal informational visit at our office and learn more about the study.
